Dear Friends,

It is with great pleasure that I extend a warm and cordial welcome to all of you to the Riyadh 2023 World Combat Games. This occasion marks a significant milestone as we host this prestigious competition in our region for the very first time.

In my role as the Chair of the Local Organizing Committee, I am both honored and deeply committed to ensuring the resounding success of this event. We have the privilege of being joined by over 1700 athletes representing 80 different nations, each prepared to showcase their exceptional talents across sixteen electrifying combat sports and martial arts disciplines.

The remarkable level of performance and skill exhibited during the Qualifiers serves as a testament to the dedication of these athletes, as well as the invaluable guidance provided by their coaches and support teams alongside the unwavering support of their families. Their relentless pursuit of excellence is truly commendable.

Our combat sports and martial arts embody the values of discipline, respect, and resilience - values that are deeply rooted within our culture. This event is a celebration of these core principles, with athletes competing in Aikido, Arm wrestling, Boxing, Fencing, Judo, Jiu-Jitsu, Karate, Kendo, Kickboxing, Muaythai, Sambo, Savate, Sumo, Taekwondo, Wrestling and Wushu. It is worth noting that this year marks a particularly special occasion, as para-athletes are participating in several of these disciplines for the very first time, underscoring our commitment to inclusivity and determination.

An essential aspect of the 2023 World Combat Games is its alignment with Saudi Vision 2030, which serves as a key enabler in driving our nation's development across various sectors under the supervision of The Custodian of the Two Holy Mosques King Salman bin Abdulaziz ALSAUD, and the visionary leadership of HRH The Crown Prince, Prime Minister, Prince Mohammad bin Salman bin Abdulaziz ALSAUD. Through these Games, we aim to inspire and ignite the aspirations of our future generations, providing them with the opportunity to engage in these remarkable sports. We believe in the power of sport and want everyone to live happy, healthy and fulfilled lives. In this spirit, we have established special Fan Zones around the arena, offering budding warriors and enthusiasts the chance to test their skills and develop a deeper connection with these sports.

For those experiencing an event of this kind for the first time, you are in for a captivating and memorable experience. The Riyadh 2023 World Combat Games promises ten days filled with awe-inspiring moments. The bar was set high by the standard of performance and skill displayed in the Qualifiers. This is a testament to all the hard work put in by the athletes, their coaches and wider teams, and the unrelenting support of their families.

Athletes are competing in the following combat sports and martial arts: Aikido, Arm wrestling, Boxing, Fencing, Judo, Jiu-jitsu, Karate, Kendo, Kickboxing, Muaythai, Sambo, Savate, Sumo, Taekwondo, Wrestling and Wushu. Additionally, for the first time in these games, paralympic athletes are taking part in a number of these disciplines.

Riyadh 2023 World Combat Games

1.4 A word from the AIMS President Stephan Fox

The 2023 World Combat Games, held in beautiful Riyadh, is more than just a sporting event. It is the first multi-sport event which is fully inclusive, bringing together 16 martial arts and over 1700 athletes from over 80 countries and 5 continents. Athletes of all abilities will come together in a unified event, in line with Saudi Arabia's Vision 2030 where everyone has the opportunity to succeed.

One of the pillars of Vision 2030, driven by His Royal Highness Crown Prince Mohammed bin Salman Al Saud, is to work tirelessly to build a better tomorrow for ourselves, our children, and our children's children. This is very much in line with our desire to create a better world through the power of sport and especially through combat sport in which respect, honor, traditions, excellence and fair play are the pillars we stand on.

We will see an all-in-one venue concept where the best martial artists will compete for their place on the podium. But there is so much more to see beyond the competitions. A cultural pavilion, a Fan Zone, forums, workshops and the Peace and Sport Middle East Forum, where the Champion for Peace and the Combat Sport Initiative of the Year will be awarded.

On behalf of the 16 combat sports and its representative athletes, we would like to thank the Kingdom of Saudi Arabia for opening their homes and hearts to the athletes of the world. To not only give a once in a life opportunity for these athletes, but to also showcase the spirit of sport and martial arts, demonstrating that we compete fiercely against each other, show grace in defeat and victory alike, and live peacefully together.

Thank you to the Kingdom of Saudi Arabia.

World Combat Games Chair

1.8 The WCG 2023 Emblem

The symbol, derived from a fighter's high kick, captures the essence of power, agility, and determination. Depicting a dynamic leg extended upward, the symbol embodies the fighter's strength and mastery of their craft. It represents the pursuit of excellence, as the high kick requires extensive training, flexibility, and precise technique. The symbol serves as a reminder of the fighter's commitment to push boundaries, overcome challenges, and reach new heights. It symbolizes the indomitable spirit of the fighter, inspiring others to strive for greatness and to never underestimate the potential within themselves.

To blend the Arabian culture and feel, a square shaped head was adopted rather than a rounded one. The square shape was inspired by the dot of Arabic letters, adding a distinctive touch to the symbol's design.

3.8 Post-competition procedures

Mixed Zone

All athletes after competition are required to go to the Mixed Zone. In the Mixed Zone they will be asked for interviews from the host broadcaster or other media members.

3.9 Anti-doping

Doping Control

The World Combat Games Organizing Committee is committed to delivering a world-class Anti-Doping Program. The Anti-Doping Program will ensure the integrity of sport is upheld and protect the rights and health of the athletes.

Notification of Athletes for Doping Control

Only authorized Doping Control Personnel (Doping Control Chaperone or Doping Control Officer) can notify an athlete of his or her selection for doping control. Notification of an athlete's selection for doping control will occur as soon as practically possible. For competition venues this should be at the completion of the competition. At training venues this should be at a suitable break in their training or at the conclusion of their training session. At the athlete hotels, this should be upon locating the athlete requested for doping control.

The Doping Control Personnel will attempt to notify the athlete discreetly (i.e., in private and away from public areas, media, etc.).

Below is the step-by-step procedure (for competition venues):

1. The Lead Doping Control Officer informs the Doping Control Chaperone which athletes are to be notified for doping control.
2. The Doping Control Chaperone(s) will be at a pre-arranged position near the athlete exit from the Field of Play (FOP).
3. At the conclusion of the athlete's competition, the Doping Control Chaperone should approach the athlete as he/she exits the FOP and before entering the Mixed Zone (subject to any sport-specific requirements).
4. The Doping Control Chaperone should introduce themselves as a Doping Control Chaperone and show the athlete their accreditation. The athlete will be informed that they have been selected for doping control under the authority of the SOPC and what type of sample the athlete is required to provide (i.e. urine and/or blood).
5. The Doping Control Chaperone should escort the athlete directly to the Doping Control Station, unless the athlete is required to attend a permitted activity to delay reporting to doping control. Permitted reasons for delay to doping control include:
 - Medal ceremonies
 - Media commitments
 - Competing again in further competitions or completing a training session
 - Performing a warm down or obtaining warm clothing
 - Obtaining necessary medical treatment
 - Locating a representative and/or interpreter
 - Obtaining photo identification
 - Any other reasonable circumstances, as determined by the Lead Doping Control Officer, considering any instructions of the Organizing Committee

Athletes that delay their arrival to the Doping Control Station for a permitted reason will be informed by the Doping Control Chaperone that it is their responsibility to always remain in full view. Once the athlete has completed their permitted delays, they will be escorted to the Doping Control Station by the Doping Control Chaperone.

Sample Collection

Athletes selected for doping control will be required to provide a urine and/or blood sample to an authorized Doping Control Officer/Blood Collection Officer. All samples will be collected in accordance with the World Anti-Doping Agencies International Standards for Testing and Investigations (ISTI).

Sample collection will take place at the competition venue at the end of an athlete's involvement in the competition session. Athletes (accompanied by a Doping Control Chaperone or Doping Control Officer) may be transported from a competition venue back to their accommodations to complete the sample collection procedures if they cannot be completed at the competition venue.

Doping Control Station

KSU will have a dedicated and private Doping Control Station (DCS). The DCS will be in the venues' operational areas and access is controlled by the Doping Control team. Sealed drinks will be available for athletes in the DCS.

To protect the athlete's privacy, access to a DCS is restricted to the following personnel: the athlete, the athlete representative, an interpreter (if required), and Doping Control Personnel, unless otherwise approved by the Doping Control Officer (DCO). Additional personnel requesting access may include an International Federation (IF) or National Federation (NF) representative, a member of the World Combat Games Medical & Anti-Doping Commission, Medical & Anti-Doping team or a World Anti-Doping Agency (WADA) observer. These personnel are

required to present the DCO with adequate identification and accreditation upon arrival at the DCS. Members of the media are not allowed entry to the DCS at any time.

4. **Accreditation**

4 Accreditation

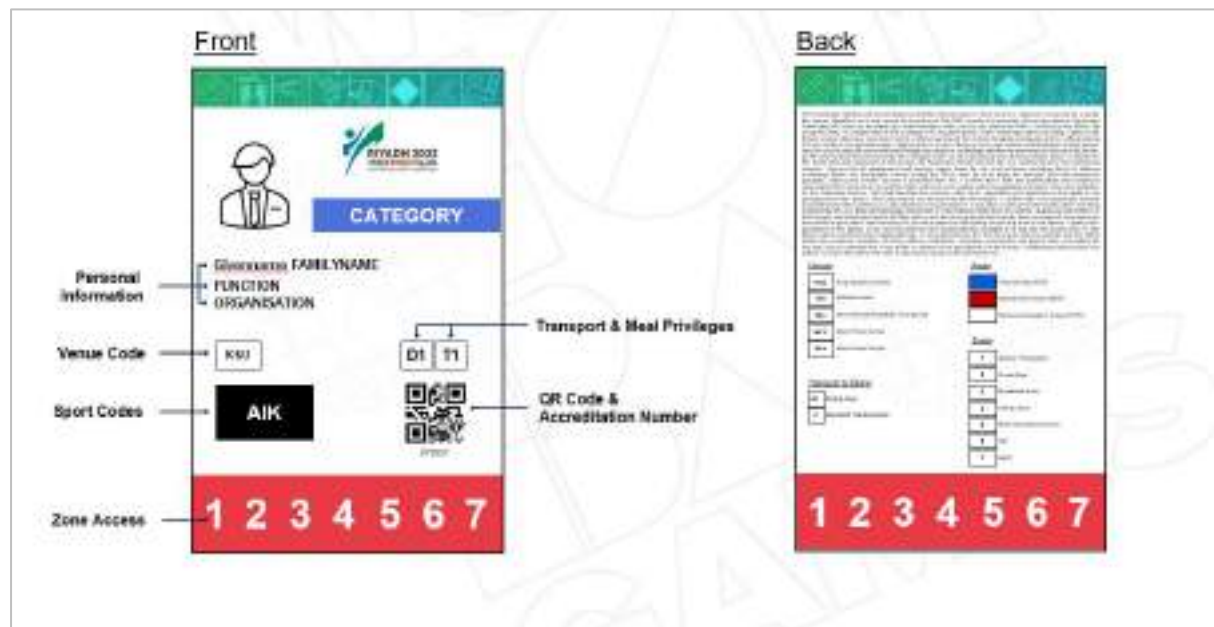

The Riyadh 2023 World Combat Games Organizing Committee will issue an Accreditation Pass (WCGAP) to each individual participating or working at the 2023 World Combat Games (WCG23). This pass identifies personnel involved at the World Combat Games and facilitates the necessary access in order to perform their roles.

All participants are expected to conduct themselves as outlined and agreed upon in the Participant's Commitment Form. Failure to do so may mean immediate revocation of their right to participate and their accreditation pass.

The accreditation pass is personalized and registered to a specific individual and should not be shared. The pass should be visible at all times when moving around the venue, with the exception being athletes moving to the warmup areas as well as field of plays in order to compete.

Accreditation will be distributed ahead of time in each hotel room as part of the World Combat Games 2023 Welcome Pack. If the accreditation pass is missing, athletes and team officials should inform the staff at the welcome desk in the hotel. Additionally, athletes and team officials can contact the accreditation team via email at <mailto:accreditation@riyadh2023.com> or visit the Welcome Center at KSU.

6. Competition Rules

The competition will follow the FIE Technical and Competition Rules, [INTERNATIONAL FENCING FEDERATION - The International Fencing Federation official website \(fie.org\)](https://www.fie.org/)

At Combat Games, competition will take place over 3 days, with individual and team competitions for men and women in the 3 weapons, foil epee and saber.

7. Competition Format

7.1. Individual event

• Preliminary Stage

The pools are composed taking account of the latest official FIE ranking and by drawing lots among any fencers who are not in the ranking.

The preliminary phase consists of one round of pools, from which 20%–30% of the participants in the pools are eliminated, based on the indices of all competing in them, and a preliminary direct elimination table.

• Direct elimination stage

All the fencers qualifying from the round of pools are placed in a direct elimination table, complete or incomplete, according to the indices resulting from the pools. This table is fenced right through to the final.

7.2. Team event

The competition is run by integral direct elimination with a direct elimination table which may be incomplete.

At the World Combat Games the teams occupy the places in the table according to the most recent official team ranking of the FIE. The teams that are not classified occupy the last places in the table and it will be ranked according to individual results (the 3 best individual results; if a fencer didn't take part in the individual competition, he/she takes the last place + 1).
